

Agricultural College

Clareholm and District

"Laugh? Thought I'd Die."

GENERAL INFORMATION
The work of the Agricultural Schools, divided into two main divisions, viz. Agriculture and Household Science. The work in the former department is organized especially from the point of view of the practical farmer and in the latter department from the point of view of the house-maker.

AGRICULTURE.
This course aims to be eminently practical, embracing work in animal husbandry, field husbandry, and farm mechanics. Due attention will also be given to instruction in farm management, farm bookkeeping, agricultural physics, chemistry, botany, zoology, mathematics and English. The aim of the school is to make practical farmers of the young men who attend its courses. While a large share of the instruction will be given by the regular staff, valuable assistance will be rendered through special lectures delivered by men prominent in their respective branches of the Department of Agriculture and from the University of Alberta. Although the listed subjects taught during the second year does not vary much from that in the first year, the difference will be found to lie in the advanced nature of the work. The satisfactory completion of the first year's work entitles the student to enter the work of the second year; the satisfactory completion of the second year entitles the student to receive the Associate Diploma. The work in the third year, ending by the conferring of the diploma, is aimed to furnish the student demanded for entrance into third year work in an Agricultural College.

HOUSEHOLD SCIENCE.
The aim of the department is to train the young women of the Province to be practical home-makers. The course covers a period of two semesters of five months each. While the work of both semesters is conducted on essentially practical lines aiming to secure the economic management of the home, the work of the first year is especially devoted to home problems and in the interests of those who have only one year to spare. The work of the second year is designed, in addition to the home-makers' course, to assist those who are preparing to be teachers in domestic science. In addition to the two years' course mentioned above, a short course covering six weeks is offered in each school for those who have only a short time at their disposal. This course will be complete in itself, being devoted almost wholly to practical work. The dates for the short course are as follows:
1914, November 19th to December 13th.
Clareholm, January 5th to February 13th.
Vernon, February 16th to March 27th.

An arrangement has been made between the Department of Education of the Province by which teachers who have already had their Normal training will receive certificates which will enable them to teach not only the work of the ordinary school grades but Domestic Science as well, while those who have passed Grade XI of the schools but have not had Normal training will be permitted, after some special instruction in method, to teach Domestic Science only.

ADMISSION REQUIREMENTS.
1. The minimum age of admission for boys is fourteen; fifteen for girls.

perceptible and readily turns round in the albumen when the egg is rotated.

A stale or a shrunken egg may be detected by the size of the air cell. A laid egg is easily recognized through the contents having become dark and opaque. The size of the air cell the consistency of the albumen, colour and mobility of the yolk and the general transparency are determining quality.

The candling of eggs is not a difficult process. It requires but little skill to tell at a glance the difference between good and bad eggs and anyone with practice can learn to differentiate between the various grades of good eggs.

The appliances mentioned above are of two different types, one suitable for use with the keroline lamp and one suitable for the use with the electric light. Neither the small amount of labor entailed in candling presents any valid reason why the public should be obliged to use or accept bad or incandescence eggs. Storekeepers will find it to their advantage to acquire facility in candling and it is recommended that every wife should provide herself with one of these simple candling appliances, by the diligent use of which she may safeguard the family from many unpleasant occurrences at the breakfast table.

On Saturday last N. Sifton shipped two cars of choice cattle to Vancouver, B. C. Allen McDonald was the buyer.

and sixteen in 1910; for girls, sixteen. 2. No entrance examination is required. The student must possess the knowledge and ability to follow by the work of the school. 3. The student must produce satisfactory evidence of moral character and physical health when requested by the Principal. 4. The school course is entirely free, but every student is required to make a deposit of \$5.00 tuition money to cover damage to furniture, apparatus, books, etc. This amount less deductions (if any), will be returned at the end of the session. Note—Text books can be secured at the School. REGULATIONS. Smoking is not allowed on school premises. Seven-eighths attendance at all classes is compulsory. Provision is made for social life of students; this is wholly under control of the Principal. Students must attend religious services each Sunday in their church, as prescribed by parent or guardian. Students must devote a reasonable amount of time to evening study. In the matter of disposal of leisure time the students are responsible to the Principal. Students will not be permitted to enter a bar room. Students living away from home will not be allowed to frequent pool rooms without permission from parent or guardian. In next weeks issue of this paper there will appear some more information regarding this school, viz. Courses of Study, Faculty, Horticulture, Chemistry, Physics, Botany, etc. Also a time table for both 1st and 2nd year students.

NOTICE
TO GEORGE COLEMAN, Formerly of STAVELY, ALBERTA. TAKE NOTICE that William Farnes Or has commenced action against you to recover \$971.50 for plowing and other farming operations performed by the plaintiff for you, and for interest thereon. If you intend to defend this action you must cause an appearance to be entered for you with the clerk of the Supreme Court of Alberta, Judicial District of Calgary, at Calgary, on or before September 1st, 1914. DATED at Calgary this 16th day of July, A. D. 1914. Clarke McCarthy Curran & Macleod, Solicitors for the Plaintiff.

Approved "J. F. C." 26-27

NOTICE

Large tract of good valley farming land just thrown open for free settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain fruit and garden trees. For large map full instructions and information, and a list of several sections of exceptionally good farms, send \$3.00 to John Keefe, Oregon City, Oregon. Three years a U.S. surveyor and humber. An opportunity to get a good, fertile farm homestead near Iowa and market.

Mr. Wm. Gardner of Macleod spent a couple of days in town this week.

Dr. R. M. Riggs returned home on Saturday morning after a month's visit to points in Ontario and in Banff.

The Misses Hutton of Lethbridge are spending a few days vacation with Miss H. Sturgeon of Chateau Mountain.

W. Davis is renewing acquaintances in town again. Mr. Davis has been living in a garage in the city town, Okotoks, Alta.

Percy Cochrane who has been spending the past six weeks of his vacation in Victoria, B. C., returned home Tuesday night.

Miss D. Napper of Macleod is on a visit with Miss A. Gardner who is staying with Mr. W. R. Shanks during Mrs. Shanks' absence.

At Macleod today the R.N.W.M. Police are buying horses to go to war. They are also collecting moneys for one year service.

Mr. W. Drollinger who was reported in last week's issue to have recovered from his illness took a bad spell last week. He is doing nicely now.

Mr. and Mrs. Refenecke and little daughter Elbert returned home last Saturday morning from Banff where they had been spending a few days outing.

Mr. W. T. Hamilton of Stony Plain Alta., and formerly of Camanogie is spending his holidays with Mr. R. J. Forbes of the Canadian Bank of Commerce.

The Ladies of St. John's Guild will give a lawn social on Mr. King's lawn next Wednesday Aug. 26th. Refreshments will be served. Clareholm band in attendance.

On Saturday Aug. 22nd there will be an auction sale at the north end of Railway St. at 2 o'clock. Mr. F. Mason will sell his household goods and furniture. G. S. Gowsky will be the Auctioneer.

Mr. A. E. Ellis on Wednesday shipped his horse, "Cyclone" along with "Redd Warner" "Black Jack" and "S. S. Booth's" drivers to Glenora to show and run at the fair today and to-morrow.

Mr. and Mrs. L. G. DeForest are visiting with Mr. and Mrs. J. F. DeForest. Mr. DeForest is a travelling salesman of J. J. H. Macleod & Co. Winnipeg. Man who are agents for the Heintzman Piano Co.

Mr. W. R. Shanks left Saturday night with Mr. and Mrs. D. C. Coleman in their private car for a trip to Spokane, Nelson, and the Kootenay Lakes. Mr. Coleman is the Superintendent of the C. P. R. for Alberta.

The merchants in Clareholm have already found that the war has caused nearly everything they buy to be a much higher price and in some cases it is impossible to get the articles they want no matter what price they pay.

Mr. J. Cunningham of the Advertiser received wire Monday to report at once at Quebec in preparation for the front. Mr. Cunningham has a wife and two children living at Daysland, Alberta, and did not get time to go and see them.

At the installation of officers of the Fort Hill Lodge, No. 13, I. O. O. F., D. D. G. M., C. W. Jones the following were duly installed for the ensuing six months:

N. G.—R. H. M. Henderson.
V. G.—F. T. McCracken.
Secretary—W. T. Cochrane.
Treasurer—Geo. Adams.

The Bishop of Calgary Dr. Pink has will take the services in St. John's Church on Sunday next as follows: Morning Prayer and Holy Communion at 11 a.m. and evening services at 7.30 p.m. All are cordially invited to attend.

Mr. J. A. Workman took a business trip to Calgary on Tuesday returning the same evening.

The Mission held a meeting yesterday afternoon in Mr. Hudson's office to organize a chapter of The Royal Arch Mission. It was decided to take steps to organize at once. A meeting of the Royal Arch Mission will be held next Wednesday after at 4 o'clock to complete arrangements.

Word was received by a number of those who sold oil leases that the Franklin Co. in which company their holdings are included were putting the stock on the side now. This stock will be sold in the United States when an offer has been made for a large block.

The Canadian Forestry Association has passed indefinitely their big convention which was to be held in Halifax from September 1st to the 14th and any one going to Halifax within the next few days will have to pay full fare back to starting points. The convention was postponed on account of the war.

LOST—A little black and white dog, fox terrier, answers to the name of "Mike". Finder will please notify the Review or the Queen's Hotel.

Over in British Columbia they can and do grow peaches of as fine a flavor as a peach, and with a bluish glaze as attractive and any thing produced in the Niagara Belt. There does not seem to be any good reason why this fruit, treasured and fresh picked, should not be sold on the Alberta market, not later than thirty six hours after being picked.

Arrangements have been made to supply the housewife throughout Alberta and Saskatchewan with this luscious fruit, as well as delicious juicy plums from the same climate.

As will be noted in our advertising columns, these fruits will be shipped promptly when picked, and the housewife who is alert will be able to have the finest preserves in the land, by requesting her dealer to advise her promptly when he receives them.

"The Canada First" argument is backed up by good common sense in this instance, because California or Washington products, green picked lacking the flavor of the Canadian grown articles are from six to nine days on the road.

Provinces of Alberta To Wit: By virtue of a writ of Execution issued out of the District Court of Macleod, Alberta at the suit of THE BANK OF HAMILTON Plaintiff and BENJAMIN J. MILLER Defendant, and to be directed against the lands of BENJAMIN J. MILLER I have seized and taken into Execution the following lands namely: The North West Quarter of Section Nine (9), Township Fourteen (14), Range Twenty Eight (28), West of the Fourth (4th) Meridian, in the Province of Alberta, except all mines and minerals, which I shall expose for sale on Saturday the Twenty-Fourth (24th) day of October 1914 in front of the post office at Staveland, Alberta, at the hour of Two o'clock in the afternoon.

Sherriff's office July 20, 1914. A. B. McDonald, Sheriff. Macleod Judicial District.

WANTED
Men and women wanted in all localities no matter how small the village may be who are willing to devote a few hours in their spare time showing samples to their friends and neighbors, position will pay \$15.00 monthly, simple case with samples sent at \$1.50.

The Consumers Association, Windsor, Ontario.

Did you see the wonderful house-bell game on Thursday evening?

No? Where was it?

What didn't you hear about it?

No! I didn't, go ahead on tell me, I'll tell about it on Thursday evening, some of the business men of town get together and put on a remedy in house-bell to test all records.

The married men played against the single and each player was dressed in a little out of the way and the players being dressed as suffragettes, just left they had to act accordingly.

On once the crowd, twenty strong and only one police to fight. He pulled out in club and played "Blows to the right of him, blows to the left of him," on came the suffragettes, down went the policeman.

The game was over, the crowd left for home with some sides, and tears in their eyes from laughing. Putting all jokes aside, at times there was some real good play and some of the married men who were over-looked when the league team was picked this year, played the best. In running the race with the single, a little and sometimes caused the runner to roll instead of run. At times the players got unruly but this was over come by the assistance of some of the married men who would say a word but carry the unruly one off the field. The admission to the game was 5 cents but times being so hard the price was cut to 2 cents. The line up was as follows:

Married Single
D. B. Vanhorn R. J. Forbes
A. Schick catcher B. Bonds
J. A. Mitchell pitcher Fred Watkins
J. B. Boese G. Clark
L. Reffern E. Jones
Wm. McKenzie C. DeGroot
F. McCormick Wm. Moffatt
E. Moffatt A. E. Ellis
F. Murray T. Haig
C. Romaine Harry Owen
Empire—L. G. Shortreed

Fruits For Preserving

Over in British Columbia they can and do grow peaches of as fine a flavor as a peach, and with a bluish glaze as attractive and any thing produced in the Niagara Belt. There does not seem to be any good reason why this fruit, treasured and fresh picked, should not be sold on the Alberta market, not later than thirty six hours after being picked.

Game Regulations

A book regarding the Game Act was placed at this office to-day and it shows the following regarding the regulations for 1914.

Mountain sheep and goats
From Sept. 1st to Oct. 14
Deer, moose and Caribou
From Nov. 1st to Dec. 14
Ducks and swan
From Sept. 1st to Dec. 31
Grouse, rails, coots, snipes, etc.
From Sept. 1st to Dec. 31
Prairie chickens, partridges, etc.
From Oct. 1st to Nov. 30
Fox, mink, fisher and marten
From Nov. 1st to Mar. 31
Otters and muskrats
From Nov. 1st to April 30
No ducks, swan, snipes, etc. to be placed in cold storage between Mar. 1st and Sept. 20th following.
No person shall export any animal or bird mentioned in the Game Act or taken from the Minister of Agriculture.
No person shall willfully destroy, destroy or take the eggs of any game or other birds protected by The Game Act.
No dogs shall be used by any one to hunt big game.

Sherriff's office July 20, 1914. A. B. McDonald, Sheriff. Macleod Judicial District.

Horrors of War
What is the war about? Few know or understand. Our book "The Nations of Europe" gives the causes and issues of the greatest of all wars, magnificently illustrated. Everybody wants to know why industry, commerce, flatter shipping mails every activity all over the world, has been instantly stopped. Agents send life cost mailing outfit. Retail \$1.50.
Horn Publishing House, Box 94, St. John, P. B.

Poultry Column

The quality of eggs may be readily determined without breaking the shell.

Consumers should learn the art of candling.

The government is distributing candling appliances free.

Few consumers appreciate the fact that the quality of an egg can be accurately determined without breaking the shell. The process of candling eggs is not difficult with the use of convenient candling appliances generally in the art and practice of candling, the Poultry Division of the Live Stock Branch of the Dominion Department of Agriculture is distributing gratuitously throughout the country in the same manner as Bulletins are distributed, simple convenient cardboard egg candling appliances. These may be obtained upon request to the Live Stock Commissioner, Ottawa.

It is not generally known that an egg appears semitransparent when held before the light in a darkened room and that, if carefully rotated even minor defects may be seen. Pamphlets dealing with this matter have been prepared, and illustrations included showing in detail the characteristic appearance of both good and bad eggs when being candled.

The candling of an egg when held completely flat the shell but as cooling takes place contraction occurs and an air space is formed in the large end. The yolk is only slightly perceptible and readily turns round in the albumen when the egg is rotated.

A stale or a shrunken egg may be detected by the size of the air cell. A laid egg is easily recognized through the contents having become dark and opaque. The size of the air cell the consistency of the albumen, colour and mobility of the yolk and the general transparency are determining quality.

The candling of eggs is not a difficult process. It requires but little skill to tell at a glance the difference between good and bad eggs and anyone with practice can learn to differentiate between the various grades of good eggs.

The appliances mentioned above are of two different types, one suitable for use with the keroline lamp and one suitable for the use with the electric light. Neither the small amount of labor entailed in candling presents any valid reason why the public should be obliged to use or accept bad or incandescence eggs. Storekeepers will find it to their advantage to acquire facility in candling and it is recommended that every wife should provide herself with one of these simple candling appliances, by the diligent use of which she may safeguard the family from many unpleasant occurrences at the breakfast table.

On Saturday last N. Sifton shipped two cars of choice cattle to Vancouver, B. C. Allen McDonald was the buyer.

LAWLESS ALBANIA.

Blood Feud is a Recognized Usage

in Italian State.

The pluck of Prince William of

Wied, who has been chosen by the

Powers as the first sovereign of Al-

bania, and who is now endeavoring

to settle down to his throne, has

been surprised to find that the

Albanians have never known a King, and

they certainly know no law. For the

most part the prince will find his

subject's individualism unimpaired,

frank to a friendly, unflinching to an

enemy, and every man a law unto

himself.

The Albanians live in a perpetual

state of anarchy. Even the peasant

in the fiefs, with weapons for his

own defense, and his neighbors for

his, is a law unto himself. The

WHY CHEESE EXPORTS
HAVE BEEN DECLINING

Vast Home Market For Dairy Products in Other Forms Must Be Seized For Export Less Profitable

According to the "Canadian Countryman" the products of Canadian farmers have only been dropped out of the class of exportable commodities.

Lard, butter, eggs, hogs, sheep, have all conservatively retained a home market better than any that could be found abroad.

Two items, however, which have not been dropped out of the class of exportable commodities, are wheat and wheat flour. It is today, but it is far heavier than it was, a fact for which wheat

and many retail dealers will vouch. So far this season, the Canadian market has managed to find a market for home. The prices asked and paid are very close, as yet, to export quotations, but they are still

below the ideas of the Old Country trader. Of course, there is no doubt a considerable loss of profit, but it is a fact that Canada must find a foreign outlet for a great bulk of her cheese make. But, after all, it is just about as bad as looking for another kind of thing to happen.

The way in which eggs, butter and other items went up above Old Country demand and stayed there, might well happen again.

The reasons given for the disappearance of the various commodities from the export trade are many and varied. The home market is ever the best and most profitable market for the farmer. It is, however, not the best for the farmer's pocket.

The home market is ever the best and most profitable market for the farmer. It is, however, not the best for the farmer's pocket.

The home market is ever the best and most profitable market for the farmer. It is, however, not the best for the farmer's pocket.

Immediately underneath the room to which Sir Henry Lawrence was taken when the distinguished general died.

Cold Storage Eggs
Canada imported 13,000,000 dozen eggs in one year. Of the total imports British Columbia took five and a half million dozen

The world's production of rubber in 1913 was 108,440 tons, as against 5,400 tons in 1908.

Insects Destroy Crops

Interior insects inflict a yearly

of woodpeckers, 96 per cent. of fly catchers, and 95 per cent. the yearly food of wrens. Another reason given for protecting birds is the fact that many of them consume the seeds of weeds.

Canadians Like Sugar

The annual consumption of sugar in Italy is only eleven pounds per

day in Montreal by Justice De-
of the superior court. Mrs.
h Giroux, nee Virginia Bradley,
her husband for separation.
ing the hearing of the case it de-
that the defendant is her sec-
husband and a brother of her
The judge ruled that she could
obtain separation; that she was
the legal wife of the defendant.
